## ORISENSE FREEZE DRIED VERSATILE - LIGHT - TASTY - NUTRITIOUS

Freeze-drying is a process where frozen raw materials are placed in a refrigerated vacuum and the ice crystals in the product are sublimated into water vapour, while the cell structure of the original product remains. Although freeze-dried fruits are small and lightweight, studies show that the antioxidant phytochemicals found in the fruits' fresh state are retained at levels almost as high after freeze-drying closest to the fresh form.

Light-weight

Long shelf-life

All natural

## DAIRY

ICE CREAM TOPPING

YOGURT

MILK SHAKE

READY TO EAT YOGURT BITES

Freeze-dried fruits and powders can be used in various applications in the dairy segment. As it has low water activity there are fewer chances of contamination which is ideal for dairy as most of the products are not thermally treated. Freeze-dried fruits are also used in the application where maintaining the structural integrity of fruit for visual appearance is the focus. Freeze-dried Fruits not only add natural Flavour and color to the product but also increase the nutritional Value.

# THE FRUIT BOWL OF INDIA

## **Strawberry** - Grown in Wai

Mahabaleshwar strawberry contains up to 80 percent of water which makes it juicier than other strawberries. The glucose percentage is 10 percent as compared to 7 percent seen in other varieties making it naturally sweeter than other strawberries.

## **Alphonso Mango** Konkan region-230km

Available during mid-July, Alphonso Mangoes are internationally loved for their sunshine yellow appearance and delightful taste. Ratnagiri and its neighbouring regions in Maharashtra are known to be one of the finest and exclusive hotspots for mango lovers, widely famous for their Alphonso mangoes.

## **Oranges** Nagpur - 778km

Nagpur is rightly called the 'Orange City' because of the large variety of oranges grown and sold in the region. The city is not only the largest producer of oranges in India but also exports to the rest of the world.

## **Banana** Jalgaon- 455.8km

Today, Jalgaon is the seventh biggest producer of banana in the world. Its average yield is 70 tonnes per hectare, which is high than the global levels. This, in itself, makes Jalgaon the "land of bananas."

## **Sapodilla** Gholvad - 350km

Gholvad, known as the 'Chickoo Bowl of Maharashtra' is a quaint village located on the coastal highway heading towards Dahanu in Palghar district. Bordi, Gholvad, Kosbad, Borigaon and Dahanu produce more than 400 – 500 tonnes of chickoo annually.

## **Custard Apple** Aurangabad - 302km

Maharashtra leads the country in custard apple production, with 92,320 tons. More than 50,000 farmers grow this fruit in Aurangabad, Solapur, Buldhana, Bhandara, Gadchiroli, Pune, Aurangabad and Chandrapur districts. Custard apple is high in fibres and is a rich source of Vitamin C, which boosts our immunity to fight against infections and diseases.

## **Jackfruit** Konkan region - 230km

Bearing the world's largest fruit also known as the Cinderella of fruits, jackfruit is native to India, and originated in the Western Ghats of India. Apart from other parts in India, it is abundantly found in Konkan region of Maharashtra. Jackfruit, one of the underutilized fruit, has got immense potential for value addition.

## **Grapes** Nashik - 303km

Nashik district, Maharashtra is known as the Grape Capital of India as it contributes more than half of the total grape export in the country. A proper supply chain of grapes is established in Nashik for the benefit of crops.
